PROFESSIONAL SUMMARY

Software Developer with hands-on experience building full-stack web applications through professional internships and personal projects. Experienced with Django, React, Laravel, REST APIs, SQL databases, Git, and modern software development workflows. Passionate about building scalable applications, collaborating in development teams, and continuously learning new technologies.

EDUCATION

Bachelor's Degree in Computer Science, Lebanese International University **Oct 2022 – June 2026**

GPA: 3.97 / 4.00

EXPERIENCE

Operations & Technical Intern, EVA OPs | Remote **May 2026 – Jun 2026**

- Developed and enhanced a full-stack Recruitment CRM platform using Django and modern web technologies.
- Designed database structures and implemented role-based features for administrators, companies, and candidates.
- Developed application modules including job management, candidate tracking, interview scheduling, notifications, and authentication.

PROJECTS

TaskFlow – Full-Stack Task Management System | Django + React **July 2026 – Aug 2026**

- Developed a full-stack task management application using Django REST Framework and React.
- Built RESTful APIs, integrated PostgreSQL, implemented authentication, and deployed the application using Render and Vercel.

Recruitment CRM Platform | Django **May 2026 – Jun 2026**

- Developed a full-stack Recruitment CRM with role-based access for administrators, companies, and candidates.
- Implemented job management, application tracking, interview scheduling, authentication, and notification features using Django and SQL databases.

Mini ERP Factory Management System | Laravel **Feb 2026 – May 2026**

- Built a web-based ERP system to manage employees, production workflows, attendance, payroll, and user permissions.
- Designed a relational database and developed an intuitive dashboard to improve factory operations.

Hallal Snacks Ordering System | React & Node.js **Oct 2025 – Dec 2025**

- Developed a responsive food ordering web application with a modern user interface.

- Implemented menu browsing, order management, and interactive user experience using React and Node.js.

TRAININGS & CERTIFICATES

Operations & Technical Internship, EVA Ops **May 2026 – Jun 2026**

Web Development Training, EPA Program, ANERA **Sep 2025 – Feb 2026**

SKILLS

Technical Skills:

- Languages: Python, PHP, JavaScript, HTML5, CSS3
- Frameworks: Django, Laravel, React
- Databases: PostgreSQL, MySQL, SQLite
- Tools: Git, GitHub, VS Code, Vercel, Render
- Concepts: Rest APIs, Object-Oriented Programming (OOP), MVC Architecture

Soft Skills:

- Teamwork
- Problem Solving
- Communication Skills
- Time Management

LANGUAGES

- **Arabic:** Mother Tongue
- **English:** Fluent in reading, writing, speaking & understanding
